Declaration of REACH Compliance

To Whom It May Concern,

We hereby confirm that all versions and variants of our Arduino boards and modules comply with the European Union's REACH (Registration, Evaluation, Authorization, and Restriction of Chemicals) Regulation (EC) No. 1907/2006,

At Arduino, we are dedicated to ensuring the safety and environmental sustainability of our products. The REACH regulation requires companies to demonstrate the safe usage of chemical substances. Our commitment includes striving to avoid the presence of any Substances of Very High Concern (SVHCs) listed on the REACH Candidate List in concentrations exceeding 0.1% weight by weight (w/w). While there may be instances where some Arduino products contain SVHCs, we continually monitor and manage these substances in strict accordance with the latest guidelines and expectations set forth by the European Chemicals Agency (ECHA). In compliance with ECHA regulations, these products have been properly registered in the SCIP database.

As of November 7, 2024, The REACH Regulation's Candidate List was updated to include Triphenyl Phosphate (EC # 204-112-2, CAS # 115-86-6), increasing the total number of SVHCs to 242.

Please find below a detailed list of compliant Arduino products:

A000005 - Arduino Nano	AKX00061 - Smart Agriculture and Irrigation Kit USA
A000024 - Arduino Ethernet Shield Rev2	AKX00062 - Smart Agriculture and Irrigation Kit EU
A000052 - Arduino Leonardo	AKX00066 - Arduino Alvik
